WHEREAS, the State Transportation Plan identifies in Section II that there is no more fundamental transportation investment than existing system preservation-keeping the physical infrastructure in safe and efficient operating condition; and

WHEREAS, the state Transportation Plan on page 72 establishes unfunded high priorities of state-wide significance and includes the need to “[p]reserve, maintain and operate city streets \$6 billion” thereby recognizing that the shortfall in funding to preserve, maintain and operate city streets is a matter of state-wide significance and accordingly, an eligible transportation improvement listed on the state plan within the meaning of RCW 36.73.015; and

WHEREAS, Transportation 2040, this area’s regional transportation plan, calls for transportation improvements that focus first on maintenance and preservation and after that on efficiency and mobility improvements that provide multimodal solutions; and

including effective transportation facilities; and

WHEREAS, the City has limited transportation funding to pay for necessary transportation preservation, maintenance and improvement and reduction of congestion on its streets; and

WHEREAS, while dedicated revenues have decreased, the ongoing annual costs to preserve, maintain and improve the City's transportation infrastructure continue to rise, leaving the City unable to continue to adequately preserve and maintain the City's transportation infrastructure; and

WHEREAS, RCW Chapter 36.73 provides for the establishment of transportation benefit districts and for the levying of additional revenue sources for transportation improvements within the District that are consistent with existing state, regional and local transportation plans and necessitated by existing or reasonable foreseeable congestion levels; and

WHEREAS, RCW 35.21.225 authorizes the City Council to establish a transportation benefit district subject to the provisions of RCW Chapter 36.73; and

WHEREAS, the City provided notice of and conducted the public hearing on December 5, 2011, regarding the proposed establishment of a Transportation Benefit District in accordance with RCW 36.73.050; and

WHEREAS, the City Council of the City of Mountlake Terrace finds it to be in the best interests of the City to establish a citywide Transportation Benefit District to provide for preservation and maintenance of the City's transportation infrastructure consistent with Chapter 36.73 RCW, to protect the City's long-term investments in that infrastructure, to reduce the risk of transportation facility failure, to improve safety, to continue optimal performance of the infrastructure over time, to provide for economic development, and to avoid more expensive infrastructure replacements in the future; and

WHEREAS, the City of Mountlake Terrace finds it to be in the best interest of the City to establish a citywide Transportation Benefit District to provide for City street improvements when designated on local, state or regional plans to reduce congestion on such streets; and
