

REQUEST FOR PROPOSALS

State Legislative Lobbying Services

Introduction

The City of Kelso ("City") is seeking proposals from qualified consultants/firms/individuals ("consultant") to represent the City on legislative issues during the 2015 State Legislative Session in Olympia.

The consultant must have demonstrated experience in lobbying the Washington State Legislature, with extensive experience on behalf of similar public sector clients preferred. At least five (5) years' experience in providing legislative and intergovernmental services before the legislative and executive branches is required. The consultant should have demonstrated experience in bipartisan relationships with a network of access to legislators, administrative executives, and staff. The City seeks a strong lobbyist with sound knowledge of public policy, clear understanding of the legislative process and effective communication skills.

Background

The City of Kelso (pop. 11,940), incorporated in 1889, is located in southwestern Washington on the Interstate 5 corridor in Cowlitz County along the Cowlitz, Columbia, and Coweeman Rivers. Kelso shares its western border with the City of Longview. The City is the state's only "chartered" code city and is governed by a city charter as well as RCW Title 35A, a.k.a. the Optional Municipal Code. The City operates under the Council-Manager form of government where legislative authority is concentrated in the elected City Council, which hires a professional administrator to implement its policies.

The City directly provides the following municipal services: law enforcement, water treatment & distribution, wastewater collection, parks, stormwater and street maintenance, engineering & public works, general administration, planning and community development, and library. The City contracts for solid waste collection, animal control, and court services. Wastewater treatment is provided by an outside agency.

The City is seeking professional services in the development and execution of a legislative advocacy program with capital funding solutions for both aging and substandard critical and transportation infrastructure within the City's boundaries. Additionally, the program will complement the efforts of

other municipal advocacy programs that identify and take action on legislation and regulations that positively and negatively impact the City's interests.
