Expedited Permit Review Request Form

For alternate formats, call 206-296-6600.

Customer Requested Expedited Permit Review

The department is not presently accepting requests for expedited review of single-family permits because we have changed our use of staff, staff overtime, and have contracted assistance in order to improve permit review time.

What is expedited review?

In some situations, permit application processing may be accelerated by the customer requesting and paying for expedited review to be completed by seasonal staff or regular staff working overtime. The success of this approach depends on the type and number of reviews an application requires, as well as the availability of department resources.

How much does it cost?

Expedited review fees shall be an additional fifty percent of the regular review fee per KCC 27.02.090. Expedited review fees are due at the time DPER confirms with the applicant that the requested expedited review services are available.

How does it work?

The department will contact the applicant before the requested expedited review begins to confirm department resource availability, and to confirm the applicant wishes to move forward with paid expedited review at that time.

If an applicant wishes to remove their request for customer paid expedited review, or department resources are not available, fees paid for expedited review will be immediately credited to any unpaid permit application fees.

If you wish to request expedited review of your permit application, please complete the reverse side of this form.

For questions regarding this program, please contact the Department of Permitting at 206-296-6600 or e-mail to DPERWebInquiries@kingcounty.gov.
