4.0 **Process for Making Appointments**

At the beginning of the biennium following an election, the Mayor shall schedule a workshop in order to solicit information from Councilmembers as to those boards and commissions on which they wish to serve. At such workshop, the Mayor shall lead a discussion of potential appointments to each position. Conflicts shall be resolved by giving the appointment to the most senior member desiring the appointment. A majority vote of the Council is required to approve all appointments.

5.0. **Appointment Limits**

The Council values continuity on boards and commission, providing experience to the boards and commissions, and providing learning opportunities for the growth of new
Councilmembers. There shall be no limit to the number of terms any Councilmember may serve on any board or commission.

6.0 Councilmembers Representing an Official City Position

Individual Councilmembers serving on appointed boards and commissions represent the Council as a whole. Once the City Council has taken a position on an issue, either through a majority vote or consensus, all official City correspondence regarding that issue will reflect the Council's adopted position.

The Mayor is authorized to send letters stating the City's official position to appropriate officials. Councilmembers shall receive copies of all such letters. If a member of the City Council appears before another governmental agency or organization either as an appointed member of that agency or as a guest to give a statement regarding an issue affecting the City on which the City Council has taken a position, the Councilmember shall indicate the majority position of the Council. Personal opinions, minority positions and comments contrary to the majority position may be expressed only if the Councilmember clarifies that such statements do not reflect the official position of the City Council.

Councilmembers have a responsibility to bring significant policy decisions back to the whole Council for discussion and decision whenever possible.
