

# Anacortes Roundabout Sculpture

2010

## Call to Artists

### Project Description

The City of Anacortes installed a roundabout at the intersection of Highway 20 and Commercial Avenue recently. The roundabout is landscaped and acts as an entryway to the City. The Anacortes Arts Commission is accepting artist's proposals for a sculpture or sculptural components that will, among other things, welcome people to Anacortes. The Arts Commission is accepting proposals for EITHER an existing piece of work that will fit the site, OR ideas for original work to be commissioned for the site. This project calls for an installation that is some or all of the following: Welcoming. Bold. Creative. Durable. Low maintenance. Imaginative. Reflects Anacortes.

Additional project information and call materials including site pictures are available at [http://www.cityofanacortes.org/Parks/arts\\_commission.htm](http://www.cityofanacortes.org/Parks/arts_commission.htm). The final project will need to be approved by the Washington State Department of Transportation - Chapter 950 of the WSDOT Design Manual will need to be adhered to. Site visits may be arranged by calling Gary Robinson, Anacortes Parks and Recreation 360.293.1918

A selection panel will narrow submissions. A Jury of 7 will choose the final piece.

### Projected Budget;

The Arts Commission currently has \$30,000 of the funds raised for what is hoped to be a \$70,000 budget. The selected artists must be willing to work with the Arts Commission as the budget gets finalized (up or down) to adjust the scale and scope of the project to fit the budget.
