

KING COUNTY WATER DISTRICT No. 90
JOB DESCRIPTION

October 2012

TITLE: Field Technician II

DEPARTMENT: Operations/Maintenance

REPORT TO: Superintendent/Foreman

SALARY RANGE: \$4,077 TO \$5,529

DEFINITION:

The primary function of this position is to perform a variety of unskilled, semi-skilled and skilled manual labor in construction, maintenance or repair operations in a variety of areas including District grounds; may operate trucks, backhoe, jackhammer and other construction or maintenance equipment; read water meters; perform related work as required. Duties of this class are generally varied in scope. Assignments involve the safe use of a variety of hand and power tools, the operation of light construction equipment and related maintenance equipment; break asphalt and concrete and load rubble into trucks; read work orders, complete forms and write reports on work, time, and material used, and perform related work as required. Work may be performed in inclement weather for extended periods of time and hazardous locations such as street areas, ditches, and confined spaces. May respond to customer service calls and turn water on and off. A supervisor reviews work performed independently for quality.

ESSENTIAL JOB FUNCTIONS: *(Any one job position may not include all of the duties listed nor do the listed examples include all tasks which may be found in positions of this class.)*

Essential Responsibilities: Perform manual labor tasks that are unskilled, semi-skilled, or skilled in nature; operate related motorized equipment or hand tools required to complete a task.

- Work as a member of crew in support of installation, maintenance, and repair of District facilities.
- Accurately read water meters and record readings; turn water meters off/on.
- Must be able to respond effectively and courteously with customers and others in crisis and/or stressful situations.
- Responsible for developing safe work habits and contributing to the safety of self, co-workers, and the general public.
- Set-up traffic control for crew work sites; perform flagging functions as specified by Washington Department of Transportation regulations and internal safety policies. Will be required to obtain WDOT traffic control certificate.
- Sweep and clean storage areas and equipment; wash and maintain overall cleanliness of District vehicles and equipment; perform landscape maintenance activities.
- Record daily work activities on work-order forms; complete trip tickets and
