Chelan County Short-Term Rentals

Introduction

A short-term rental refers to a residential dwelling rented out on a nightly basis for less than 30 days or nights to individual guests. It could be a whole home or just part of it. Short-term rentals have increased rapidly since 2014, especially in Leavenworth and Manson areas. See maps in Attachments A and B illustrating operating short-term rentals across the county as of early 2020, and data on short-term rentals in Attachment C.

Chelan County has been considering how to best address short-term rentals to allow for property owner income while protecting the character of residential communities across the county. In 2019, Chelan County considered draft regulations, and ultimately did not carry forward a draft at that time. The Board of County Commissioners desired to look at new code options in 2020. Between March and December 2020, the Planning Commission held meetings and hearings and made a recommendation, and the Board also held meetings and a hearing.

Due to the diverging interests of residents and short-term rental operators, the Board of County Commissioners established a Task Force comprised of three neighborhoods residents, three short-term rental operators, and three Planning Commission representatives (two current and one former member). The Task Force met between February and April 2021, and their recommendations presented to the Board in May 2021 are included in Attachment D.

This hearing draft is based on the results of the Task Force, consideration of comments received during comment windows, and legislative workshops in May and June.

Summary

The bullets below and flow chart highlight key features of the proposed code.

- **Zones Allowed:** The County Code includes a chart by zoning district identifying where permitted or conditionally permitted short-term rentals are allowed. Tier 1 owner-occupied short-term rentals are permitted in most zones as an accessory use in unincorporated County lands provided they meet operational standards and obtain a land use permit. Tier 2 short-term rentals are non-owner occupied, and are permitted in most zones but are further restricted based on lot size and distance. Tier 3 short-term rentals are those with larger occupancies (over 12 total guests) and would require conditional use permits in selected zones, must take highway access, and have similar restrictions on locations and numbers as Tier 2.

- **Number Allowed:** New non-owner-occupied units (Tier 2) and larger occupancy short-term rentals (Tier 3) could locate in unincorporated areas except for zip codes and Urban Growth Areas (UGAs) with more than 6% short-term rentals as a share of total units. Also, due to community preferences, new short-term rentals would be limited in Peshastin UGAs and only allowed in commercial zones.
Developments specifically designed for short-term rentals (e.g. Planned Unit Developments and Master Planned Resorts) are not subject to the cap.

**Operational Standards:** Tier 1, 2, or 3 units would be required to meet standards such as occupancy, parking, noise, solid waste, adequate sewer and water, fire preparedness, access to a qualified person within 60 minutes, establishing a property management plan, etc.

**Existing Units:** Existing Short-Term rentals would need to show they were operating prior to the moratorium and over 2019 or 2020 paid taxes consistent with state requirements. The date of the moratorium is August 25, 2020. Existing short-term rentals would need to meet criteria regarding historic use as a short-term rental, proper payment of taxes, and compliance with operational standards. Permits would need to be obtained as well. Where non-conforming requirements cannot be met, there is a 1-year grace period and then the use must cease. If a short-term rental was established after the moratorium it is not considered non-conforming.

**Permit Process:** All Tier short-term rentals must register and provisionally self-certify. Tier 2 and Tier 3 Short-Term Rentals that can comply with the rules fully can enter a waiting list up to the designated cap; those received on a first-come, first-served basis would apply for a full permit with required inspections. To allow time to set up the permit review system, the first permit would include self-certification regarding compliance. Within the first or second year the County would require inspections and more detailed review. Thereafter, annual renewal would be based on self-certification and a more abbreviated review. Fees would be set to recover costs of permit reviews and inspections such as by the fire marshal, health district, etc.

Short-Term Rental Standards

CHAPTER 11.88 SUPPLEMENTARY PROVISIONS AND ACCESSORY USES

11.88.290 Short-Term Rental Regulations

(1) PURPOSE

(A) Short-term rental use is a commercial use. Where excess rental units exist in residential communities, it has been shown to be detrimental to the affordable residential housing inventory and adversely affect the residential character of those neighborhoods.

(B) The purpose of this section is to establish regulations for the operation of short-term rentals as defined in Chelan County Code (CCC) 14.98, within the unincorporated portions of Chelan County, except short-term rental properties within the Stehekin valley area portion of Chelan County. This chapter also establishes a short-term rental land use permit.

(i) Stehekin Valley short-term rental code development. Stehekin valley is a remote portion of Chelan County accessible by only horse, foot, water, and air travel. It also lacks modern communication and power infrastructure and has other comprehensive planning, infrastructure, economic, natural resource, and other land ownership and land use considerations. Because of these and other considerations, an additional public process will be needed to specifically develop regulations applicable to short-term rentals in this location. That code will be developed at a later date.
(C) The provisions of this chapter are necessary to promote the public health and safety by protecting year-round residents’ enjoyment of their homes and neighborhoods by minimizing the nuisance impact of short-term rentals on adjacent residences and by minimizing the detrimental impact of excessive short-term rentals on the affordable housing supply.

(D) The provisions of this chapter are necessary for consistency with the goals and policies of the Chelan County Comprehensive Plan including but not limited to,

(i) Land Use Element considerations of commercial and residential development that provides sustainable economic opportunity while limiting localized sprawl, maintaining community character, and providing employment opportunities for residents, and anticipating future needs,

(ii) Housing Element goals and policies including, but not limited to, appropriate placement of vacation rentals to avoid impacting neighborhood character\(^4\) and housing stock, accessibility to affordable housing for all residents, providing for a variety of residential housing types and densities, and supporting regulatory changes that promote affordable housing options in all locations in the county,

(iii) Rural Element goals and policies including, but not limited to, maintaining natural environment features that support natural resource-based economic activities including small scale recreation and tourist uses, wildlife habitats, traditional rural lifestyles, outdoor recreation, and open space.

(2) Type, Number, and Location

(A) Type. Short-term rentals are distinguished in three tiers.

(i) Tier 1: Owner-occupied short-term rentals where either (a) rooms are rented and the owner is personally present at the dwelling during the rental period, or (b) the short-term rental is located within the same parcel as the owner’s principal residence and the owner is personally present at the dwelling during the rental period, or (c) the entire dwelling is rented no more than fifteen (15) total days in a calendar year provided that an on-site qualified person is there during the owner’s absence. Portions of calendar days shall be counted as full days.

(ii) Tier 2: Short-term rentals at a dwelling that is not owner occupied or Tier 3 short-term rental.

(iii) Tier 3: Short-term rentals may be either non-owner occupied, or owner occupied, and exceed occupancy limits applicable to Tier 1 and Tier 2 units as identified in CCC 11.88.290(3). No short-term rental may operate as a Tier 3 short-term rental without meeting all Tier 3 provisions as applicable to their property under the requirements found within this chapter.

(iv) Existing non-conforming short-term rentals must comply with the provisions of Subsection (3)(B) below.

---

\(^4\) Relates to Policy H 2.4 that is directly relevant to this proposed code.
(B) Tiered Permits and Numbers Allowed.

(i) Tier 1: New Short-term rentals are allowed where permitted per Subsection (C).

(ii) Tier 2 and Tier 3:

(a) New Tier 2 and 3 short-term rentals cannot be located where short term rentals make up more than the maximum share of the total housing stock in residential zoning districts listed in the table below. This is the maximum share of short-term rentals in residential zones within zip codes, zip code subareas, or within urban growth areas where the use is expressly allowed. Leavenworth subareas are identified based on the boundaries in (b). If the share equals or exceeds this level, no new short-term rentals are allowed until the total number falls below this maximum limit.

Leavenworth Subareas Map – Portions of Zip Code 98826

(c) To calculate the maximum share of short-term rentals in subsection (2)(B)(ii)(a), total dwelling units must be determined based on the latest annual count of total housing units by the State of Washington Office of Financial Management, or another state or county agency that tracks Chelan County housing inventory. Short-term rental percentages must be determined at the time the number of allowed short-term rentals is determined per Subsection (4) of this section.
(d) Tier 2 and Tier 3 short-term rentals in the following zones are not subject to the maximum cap in (a): Rural Commercial zoned districts, Manson and Peshastin Urban Growth Areas' Commercially zoned districts, Planned Unit Developments existing on the date of adoption of this chapter with recorded plat notes expressly permitting short-term rentals, or Master Planned Resorts.

(e) Share calculation for Cities and Urban Growth Areas are calculated separate and independently from other areas within the same zip code or a designated subarea of a zip code, and one calculation does not affect the maximum allowed share of short-term rentals for the other.

(f) Within Leavenworth subareas to determine if a new Tier 2 or Tier 3 short-term rental is allowed, first the overall zip code share must be met and second the subarea zip code share must be met.

(iii) Existing non-conforming short-term rentals of any Tier level are not subject to the limitations in Subsection (2)(B) provided they comply with all the provisions of Subsection (2)(E) below.

(C) Zones Allowed. In order to operate, short-term rentals may be allowed pursuant to:

(i) Section 11.04.020 applicable to all Rural and Resource Designations, except as limited in Subsection (2)(B).

(ii) Section 11.22.030 applicable to the Peshastin Urban Growth Area, except as limited in Subsection (2)(B).

(iii) Section 11.23.030 applicable to the Manson Urban Growth Area, except as limited in Subsection (2)(B).

(iv) The Board of Chelan County commissioners adopts the cities of Cashmere, Chelan, Entiat, Leavenworth, and Wenatchee land use regulations, development standards and land use designations, as they apply to short term or vacation rentals of fewer than thirty (30) consecutive nights or days, within the county adopted unincorporated urban growth area respecting each city as it is now or is hereafter amended for the cities of Cashmere, Chelan, Entiat, Leavenworth, and Wenatchee, provided that any city regulation requiring acquisition of a business license is not adopted nor incorporated as a county regulation and that instead a Conditional Use Permit may be required, and the County's review procedures in this Subsection 11.88.290 must control.

(a) Upon the date of the adoption of this code on September 27, 2021 any existing short-term rentals within the exterior boundaries of any city’s designated urban growth area (UGA) are required to have been in full legal compliance with any existing city codes adopted through prior Resolution by the county as they applied to a short-term rental uses within that UGA.

5 BOCC had requested some review of whether an existing shared driveway agreement should be reviewed in the application process. Staff researched this, and found it is not practical, and hard to confine. It may place county in place of enforcing civil matters via this code. Thus, a provision to review it was not included in this draft.

The address and phone number of the property and the contact phone number for the qualified person shall be prominently displayed near the phone. If land line or VOIP is not available at the site, the Director may at his discretion allow the owner or operator of the short-term rental to use an alternative means of direct phone communication, as long as the communication device is fixed at the location and the phone number is not changed within the annual permitting period. (i) The department shall by September 1 of each year, mail a renewal reminder notice to the permitted owner or operator, sent to the postal address or the email address on file reminding of the renewal requirement of the rental permit requirement.

(ii) A permit expires on December 31 of each year, regardless of when it is issued.

(iii) All annual permitting fees are not pro-rated.

(iv) All permit renewal applications for permitting year 2023, and beyond, must be received by October 31 of the preceding year.

(b) Permit renewal applications received after December 31 will not be accepted, and the short term rental must immediately cease operations on January 1 of the following year. The owner and property loses any vesting to continue
operation as a legally conforming or non-conforming short term rental under
this chapter. Expired short term rentals under this Subsection are then subject
to the housing cap provisions of 11.88.290(2)(B) and must apply as a new

(i) Existing non-conforming short term rentals. Beginning on September 27, 2021 and by
December 31, 2021, all existing short rentals operating as of dates established in
(2)(E) and subject to the provisions of (2)(E) wishing to operate as a short-term rental for
the remainder of 2021 shall pay a fee equal to one quarter of the annual permit fee
established for their Tier per the table in Chapter 3.24, and register on a department
registration provisional self-certification form. This self-certification form serves as the first
provisional short term rental permit application. Those owners and properties failing to
register within this time period shall not be considered as an existing and non-conforming
short-term rental use for 2021 under this Section and shall forfeit any claim of continuing
existing non-conforming short term rental use status for 2022 and beyond under this
Section, and any short-term rental that occurred during this period is considered to have
been in violation of this Chapter, subject to appeal provisions under Title 16 and Chapter
14.12.

(ii) Application for, or issuance of any provisional short-term rental permit does not
guarantee future issuance of a short-term rental administrative land use permit under
11.88.290(4). The provisional permit is intended to be temporary and is only in effect
while the department reviews all permits applications for compliance with all Chelan
County regulations, including this chapter, for the 2021 and 2022 permit years before
issuance or denial of issuance of a short-term rental administrative land use permit. This
single (4)(D)(ii) provision ceases to exist on December 31, 2022.

(a) All existing non-conforming short-term rental owners wishing to continue short
term rental land use operation past the 2021 year registration for the 2022
calendar year, shall apply for a short term rental permit on a provisional self-
certification form no later than December 31, 2021. This self-certification form
serves as the 2022 provisional short term rental permit application. The applicant
may continue provisional operation until the review, found below in (4)(D)(ii), has
been completed and an administrative determination has been made, and the
owner has been notified whether their short-term rental is in lawful compliance with
this chapter so they may continue to operate in 2022.
(iii) For urban growth areas or zip codes below the cap as of the date of permit application, owners may apply for a new short-term rental application per (D)(v).

(iv) By not later than June 30, 2022, the Director shall upon review for accuracy, completeness, and code compliance provisionally approve a Tier 1 short-term rental property, or any existing non-conforming Tier 1, 2, or 3 short-term rental property as provided in 11.88.290(2)(E), for an initial short-term rental administrative land use permit subject to the owner completing a self-certification form in (4)(D)(i)(a) above provided that inspections in Subsection (4)(H) are accomplished prior to the first renewal thereafter, provided that any owner who has been found to be ineligible for continued operation under this chapter that has been notified by the Department shall have thirty (30) calendar days to provide any correction to the information that led to that determination of ineligibility, if a correction is possible, or cease all operation as a short-term rental. They must reapply for permitting under all applicable provisions of Chapter 11.88.290, subject to appeal provisions under Title 16 and Chapter 14.12.

(v) New compliant short-term rentals. Beginning on December 1, 2021, new compliant Tier 1, Tier 2, and Tier 3 land use permit applicants may apply to obtain a new conforming short-term rental permit pursuant to the provisions and limitations of 11.88.290(2).

(a) New short-term rental applications are not allowed for 2021. Applications for 2022 new compliant short-term rentals in urban growth areas or zip codes below the cap based upon available data may apply for a short-term rental land use permit application starting December 1, 2021 and by no later than July 29, 2022, as provided herein. No new 2022 permit applications will be accepted after July 29, 2022. Permit applications, or reservations for application appointments, will be taken on a first come, first served basis at the Community Development office starting at 9:00 AM. After the 2022 permitting year, permit applications for subsequent years are only accepted on the published dates allowing permit submission. The number of permit applications accepted shall not exceed the number of short-term rentals allowed per the applicable housing cap within each zip code and Urban Growth Area as provided in Subsection (2)(B). Once the limit on the number of applications for Tier 2 and Tier 3 short-term rentals has been reached, the window of time for submission shall be closed for that year, provided that Tier 1 applications do not have a limit on the number of applications.

(b) The Director shall annually by March 15 determine the share of short-term rentals to the overall housing stock in each of the unincorporated zip codes and urban growth areas, and accordingly schedule a permit application time window, to be held only once annually between June 1 and July 31, to allow new short-term rental applications for the following year in each zip code and urban growth area where the cap in Subsection (2)(B) is not exceeded.

(c) A completed permit application does not guarantee that the applicant will receive a permit to operate a short term rental. Application acceptance only guarantees participation in the permit application process and a review for subsequent permitting under the regulations in existence at time of acceptance.
(d) An application must be deemed complete before a permit is issued. Any applicant who does not complete the required application forms, complete any required inspections or other processes contained within this chapter, and fully submit any required supplemental information or who within thirty (30) calendar days of notification fails to correct any application documentation submission deficiencies as requested by the department by any required deadlines, including submitting a complete application for any required Conditional Use Permits, or who upon application review is found to have knowingly provided false information, or if the applicant or property is found to be out of compliance with this or other titles of Chelan County land use or development codes, is therefore ineligible for a short term rental permit. The applicant shall not receive any further processing of their application. Once denied, the applicant shall not be eligible for rental permit application until such time as the owner can show compliance with Chelan County regulations, and then must reapply to restart the process.

(vi) All application fees are non-refundable.

(E) Term.

(i) A short-term rental land use permit must be issued for a period of one calendar year, with its effective date running from the date the application is due as set forth in Subsection (4)(D) above and must be renewed annually by the owner or operator provided all applicable standards of this section are met.

(F) Forms and Procedures.

(i) Applications for short-term rental land use permits must be on forms provided by the County, demonstrating the application meets the standards required by this section. Permit review procedures and appeals must be consistent with Title 14.

(G) Nonuse.

(i) All short-term rentals must operate under a current short-term rental land use permit regardless of nonuse. If a property has not been rented in a twelve-month period, renewal of short-term rental land use permit must still be met to maintain the validity of the permit and to retain eligibility for renewal in immediately subsequent years.

(H) Fire, safety, health, short term rental standards, and building codes compliance, and inspections.

(i) Fire and Emergency Safety and Short Term Rental Standards. Prior to approving the initial short-term rental permit, the applicable fire district or community development personnel must perform a life-safety and applicable short term rental or conditional land use permit standards inspection, except as provided under Subsections (H)(iv) and (H)(v).

(ii) Wastewater. Each applicant shall demonstrate to the satisfaction of the Director they have a properly functioning and permitted onsite sewage system meeting applicable Health District permitting and standards for the occupancy. The wastewater system must, at all times of occupancy, be maintained and operate as originally permitted.
(iii) The Director may waive inspections under Subsections (H)(i) and (H)(ii) associated with the initial short-term rental permit if the owner or operator provides a notarized affidavit from the applicable fire district or fire marshal or Chelan-Douglas Health District that the short-term rental complies with applicable requirements in Subsections (H)(i) and (H)(ii).

(iv) After the unit is approved and permitted for rental, a completed self-certification checklist for health and safety is required to be submitted by the owner with each annual short-term land use permit renewal consistent with forms provided by the Director.

(v) Owner Responsibility. It is the owner’s responsibility to ensure that the short-term rental and remains in substantial compliance with all applicable codes regarding fire, building and safety, health and safety, and other relevant laws.

(vi) Owners applying for or receiving a valid short term rental land use permit or a Conditional Use Permit for short term rental or event venue use must allow the Director or designee to inspect or reinspect the property at reasonable times to determine initial compliance with Subsections (3) and (4)(H) of this chapter. If complaints are received, or evidence is encountered indicating non-compliance with this chapter the department may reinspect the property at reasonable times. Denial of entry for inspection is grounds for immediate permit denial or revocation of all permits for short term rental land use under this chapter pursuant to CCC Title 16.20.040.

(I) A short-term rental permit for a code compliant short-term rentals permitted according to (4)(D) is only transferable to a new owner under the provisions below.

(i) With a conforming short-term rental the permit is not transferable, even in the event of death or divorce of an owner.

(ii) A non-conforming short-term rental permitted according to the provisions of Subsection 2(E), is allowed to transfer the existing permitted non-conforming status and currently issued operating permit to continue under a new owner one time within five years, except three years within the Manson Urban Growth Area, of the effective date of the ordinance (September 27, 2021) consistent with (I)(iii) below, and the new owner may continue to operate under the existing short-term rental permit for the remainder of the current registration year and renew permits and operate in subsequent years under the permitting requirements applicable to the original owner, provided that within thirty (30) calendar days of closing the subject new owner has provided their contact name and registration information with the Department. The new owner shall provide signage and notification consistent with (3)(G).

(iii) A transfer occurs when the property is sold by a person or corporation, to another person or corporation, or when officers of corporations are changed to remove former officers and add new officers, except that a transfer does not occur when officers are changed due to death where title is held in survivorship with a spouse or a transfer on the owner’s death to benefit only a spouse or child(ren) for the lifetime of the spouse or

---

6 After the Task Force Process concluded the County received input that the Manson Community Council had been wishing to have a 3 year period for transfers as a tradeoff for going to 9% share of short term rentals in the UGA. As this post-dates the Task Force process and the County staff wish to have a more aligned process countywide we have noted 5 years universally here.
child(ren). The survivor may not sell or transfer title, except that title may transfer among the survivors. A transfer also does not occur when due to divorce a former spouse’s name is removed from the deed or corporation.

(iv) No transfers of the existing non-conforming short-term rental status may occur other than as provided in this (4)(l) Subsection, and the second owner of a lawful permit transferred must obtain all required short-term rental permits and meet all applicable requirements of this Chapter for all subsequent years beyond the current issued permit. If the property is transferred again, or is not issued a short-term rental permit in any subsequent years after initial transfer under (4)(l), the property loses its legal non-conforming status that would have applied to the original owner had they not transferred ownership.

(J) Approval Criteria.

(i) To receive approval or renewal, an owner must demonstrate to the satisfaction of the Director that all approval criteria listed below have been satisfied:

(a) The short-term rental is located in a base or overlay zone that allows its use pursuant to this section.

(b) The short-term rental is consistent with density, location, and occupancy limitations of this section.

(c) The short-term rental is consistent with short-term rental standards of this section.

(f) The short-term rental is considered non-conforming and is in full compliance with Subsection (2)(E) above.

(g) The short-term rental has not been transferred in violation of Subsection (4)(l) above.

(K) Appeals of the denial or conditions of short-term rental land use permits or annual renewals must be filed in compliance with Title 14 CCC.

(5) ENFORCEMENT

(A) Within Chelan County jurisdiction, a short-term rental must not operate without an approved and valid Short-Term Rental Permit. Evidence of operation includes, but is not limited to, advertising, online calendars showing availability, guest testimony, online reviews, rental agreements, or receipts.

(B) Enforcement of this section will be in accordance with Title 16 CCC.

(6) MONITORING

The Director shall report to the Board of County Commissioners on the status of short-term rental regulation implementation annually at the time the existing short-term baseline is reported per (4)(D). The County may initiate a review or amendment pursuant to Chapter 14.13.
(A) The Director may utilize a commercial monitoring and/or response service to assist with implementation of this chapter.

**Attachment C: Short-Term Rental Data**

Short-term rental regulations would apply in unincorporated areas of the county. Based on AirDNA property data, January 2020, there are about 1,247 whole home short-term rentals (generally typed as Tier 2 and 3 short-term rentals) and about 92 private rooms (generally Type 1 short-term rentals), for a total of about 1,339 short-term rentals. Since regulations often focus more on whole home rentals (Tier 2 and Tier 3 depending on occupancy) they are often a focus of the published tables.

The AirDNA information is based on two types of data – property based data and monthly based data which means some records are attached to the property and some records are attached to the monthly account.

Some data is through January 2020 (last month where full records were pulled by AirDNA – sometimes called “last scraped” date). Some data is presented by other years (e.g. December each year is chosen as a comparison to see growth in short-term rentals over time.

The table below illustrates short-term rentals by urban/rural status and by zip code compared to total dwellings.

By zone, the short-term rental information is presented. The share is based on the proportion of short-term rentals by zone by geography (rural or UGA) and by total in the county. It is not a share of short-term rentals as a proportion of housing stock in that zone.

Attachment E: Code Evaluation

Chelan County Code Section 14.13.040 includes evaluation criteria regarding the decision to approve, modify, or deny a development regulation amendment application, whether initiated by private applicants or the County. Each is listed below with discussion of concurrence with the criterion:

1. The amendment is necessary to resolve a public land use issue or problem.

   The short-term rental code addresses a public land use issue or problem identified by the County and community to address land use compatibility, rural character and economy, and housing affordability and availability. The community concerns are reflected in the public record for the project with hundreds of residents and landowners participating including testifying at hearings, providing letters, or participating in the Task Force. Various studies, papers, and reports on the impacts to housing stock, economic, social, and other implications of short-term rentals in communities from several locales were researched by staff and consultants, along with those provided within public commenting, and were subsequently considered in formulating several of the regulatory strategies used within the rental code.

2. The amendment is consistent with goals of the Growth Management Act, Chapter 36.70A RCW.

   The short-term rental code balances Growth Management Act goals and requirements to locate growth in urban and rural areas in a manner that encourages the preservation of existing housing stock, encourages the availability of affordable housing, allows for economic development consistent with the Comprehensive Plan, protects rural character, ensures appropriate public services, protects environmental quality, and provides for fair/timely permits. Zones that limit short-term rentals continue to provide a range of reasonable uses consistent with the district intents such as long-term residential uses, compatible home occupations, and others. (See RCW 36.70A.020 and 070)

3. The amendment complies with or supports comprehensive plan goals and policies and/or county-wide planning policies.

   The amendment is consistent with the following County Comprehensive Plan policies:

   Policy H 2.4: Encourage appropriate placement and use of vacation rentals.
   Rationale: Vacation rentals impact the character of a neighborhood and impact housing stock.

   Goal H 3: Encourage the appropriate preservation of existing housing stock.

   Goal ED 2: Encourage the retention and growth of recreational and tourist based industries consistent with the comprehensive plan.

   Goal RE 2: Maintain natural environment features that support and enhance natural resource-based economic activities, wildlife habitats, traditional rural lifestyles, outdoor recreation, and open space.

   Countywide Planning Policies promote interlocal land use cooperation: “City and county planning efforts will be coordinated within urban growth areas.”

4. The proposed amendment does not adversely affect lands designated as resource lands of long-term commercial significance or critical areas in ways that cannot be mitigated.
Short-term rentals are limited in resource zones and treated similar to similar uses such as bed and breakfasts and guest houses.

(5) The amendment is based on sound land use planning practices and would further the general public health, safety and welfare.

The short-term rental code is meant to protect residential quality of life balanced with appropriate locations for economic uses that do not unduly limit affordable housing, or conflict with rural character and environmental quality. See the proposed purpose statement in CCC 11.88.290.
