

ALDERWOOD WATER AND WASTEWATER DISTRICT
REQUEST FOR PROPOSAL (RFP)
INFORMATION TECHNOLOGY (IT) ASSESSMENT AND STRATEGIC
PLAN
AWD 488-08 / S4-2008

Chapter I: General RFP Information

GENERAL RFP INFORMATION

The purpose of this RFP is to solicit proposals from vendors qualified to prepare an information technology strategic plan and perform an evaluation of the existing IT system. Alderwood Water & Wastewater District (District) will consider proposals from single or from multiple vendors working as a team. The ideal vendor(s) will have experience in information technology system development, Geographic Information Services (GIS), information architecture, and wireless networking. They will be excellent communicators and write clearly and concisely. They will have some public sector experience, preferably with Special Purpose District's.

Alderwood Water & Wastewater District is located in SW Snohomish County, between the City of Everett, the King/Snohomish County line and approximately Puget Sound to the City of Mill Creek. The District covers approximately 60 square miles, and provides water and wastewater service to a population of more than 200,000. The District has a staff of 110 and is governed by 5 elected commissioners.

The Alderwood Water & Wastewater District created its first IT position in 1995 and now has 3 staff in IT. IT is part of the District's Administrative Services Department. The IT system has developed over the last twelve years without a formal IT strategic plan. IT staff support approximately 106 customers including the following:

- All major applications for finance, engineering, Maintenance and Operations, and administrative services
- CAD and GIS
- Internet
- Support for desktop and notebook PC's and print devices
- All network and infrastructure support including internal wired network and server infrastructure

The support includes three sites, being the District Administration facility, the Maintenance and Operation facility, and the District's wastewater treatment facility. The District's computing/networking environment includes the following:

- Standard network operating system is Windows Server 2000/2003 Standard Edition

- Standard desktop operating system is Windows 2000/XP Professional
- Standard office software is Microsoft Office 2000/2003/2007
- Standard AntiVirus is McAfee
- 19 SQL Servers
- 95 computers (combination of desk top and lap top)
- Primary data center with restricted access and dedicated HVAC. The standard configuration is rack mounted IBM xSeries servers with redundant power supplies, RAID-1 for the drives containing the operating system and RAID-5 for the data drives, built-in Ethernet 10/100/1000 network cards. All servers are connected to a smart UPS.
- The network is a managed TCP/IP switched Ethernet architecture with dedicated T1 connecting the 3 sites. The 3 sites data backbone is primarily 100BaseT. Nearly all printers are connected to the network with dedicated external print servers.
- Internet connectivity is with Comcast Cable and runs through a hardware firewall and an ISA server
- The network has no wireless connectivity
- Access to remote use is restricted, and those who do access do so via VPN

The IT assessment includes evaluation of the District's computing/network system. Areas of specific interest are:

- An evaluation that will highlight current strengths and weaknesses
- Remote access
- Email flexibility
- File/folder management with regard to resource information
- Security
- Staff structure
- Replacement cycles (software and hardware)

Deliverables will be a report outlining the finding of the evaluation and recommendations for improvements identified.

The District is looking for a consultant to help create a strategic plan that will guide us through the next five years. The process needs to involve all of the primary internal stakeholders in idea generation for the future, and in a thorough and realistic prioritization of projects.

We have a content management system in which we are interested in a pathway to help us better manage all digital content, including public records.

Deliverables to be provided include a five-year strategic plan addressing the topics listed herein and any others identified in the process of stakeholders discussions.

EVALUATION PROCEDURES

The Administrative Services Manager and other staff will evaluate the submitted proposals. The evaluators will consider how well the vendor's proposed solution meets the needs of the District as described in the vendor's response to each requirement and form. It is important that the responses be clear and complete so that the evaluators can adequately understand all aspects of the proposal. The evaluation process is not designed to simply award the contract to the lowest cost vendor. Rather, it is intended to help the District select the vendor with the best combination of attributes, including price, based on the evaluation factors. The District reserves the right to require that a subset of finalist vendors make a presentation to a selection team.

APPEALS

Vendors who wish to appeal a disqualification of proposal or the award of contract may submit the appeal in writing to the Administrative Services Manager within TEN (10) working days of the postmark on the Notice of Award or disqualification. Appeals should be sent to the following address:

Ginger Desy
Administrative Services Manager
Alderwood Water & Wastewater District
3626 156th ST SW
Lynnwood, WA 98087

The appeal must describe the specific citation of law, rule, regulation or common business practice upon which the protest is based. Neither the judgment used in the scoring by individual evaluators nor disagreement with the procurement process shall constitute grounds for appeal. The District will not consider any protest based on items that could have been or should have been raised prior to the deadline for submitting questions or requesting addenda. The filing of a protest shall not prevent the District from executing a contract with any other vendor.

Chapter II: Required Proposal Responses

If the District receives a request for inspection or copying of any such documents provided by a vendor in response to this RFP, it will promptly notify the vendor at the address given in response to this RFP that it has received such a request. Such notice will inform the vendor of the date the District intends to disclose the documents requested and affording the vendor a reasonable opportunity to obtain a court order prohibiting or conditioning the release of the documents. The District assumes no contractual obligation to enforce any exemption.

ACQUISITION AUTHORITY

This RFP and acquisition are authorized pursuant to RCW 39.04.270.

CONTRACT AWARD AND EXECUTION

The District reserves the right to make an award without further discussion of the proposal submitted. Therefore, the proposal should be initially submitted on the most favorable terms the vendors can offer. It is understood that the proposal will become a part of the official file on this matter without obligation to the District.

The general conditions and specifications of the RFP and as proposed by the District and the successful vendor's response, as amended by agreements between the District and the vendor, will become part of the contract documents. Additionally, the District will verify vendor representations that appear in the proposal. Failure of the vendor's products to meet the mandatory specifications may result in elimination of the vendor from competition or in contract cancellation or termination.

The vendor selected as the apparently successful vendor will be expected to enter into a contract with the District.

If the selected vendor fails to sign the contract within five (5) business days of delivery of the final contract; the District may elect to cancel the award and award the contract to the next-highest-ranked vendor.
