(If contract, include the term.)

Interlocal Agreement with SPOKANE COUNTY FIRE DISTRICT NO. 9, KOOTENAI COUNTY FIRE AND RESCUE AND CITY OF COEUR D' ALENE FIRE DEPARTMENT for mutual aid services.

BACKGROUND:

(Attach additional sheet if necessary)

The agreement furthers the mutual aid system already in place in Spokane County and extends it to our neighbors in Northern Idaho. It enables the parties the ability to provide additional fire control and emergency medical service equipment during a major fire, disaster, or other emergency regardless of State boundary.

The agreement came as a result of analysis and incident review from large incidents (such as the Valleyview Fire in 2008) and other low-frequency/high risk incidents (such as the multiple commercial building collapses due to snow loads in 2009). Both types of incidents required additional resources.

The Kootenai area is the largest area adjacent to Spokane that has Fire/ EMS resources that can immediately help us maintain continuity of services to our Citizens during extreme conditions. The agreement essentially creates a mutual aid system which decreases time in getting needed resources and can result in potentially lives saved and property damaged reduced in both Spokane and Kootenai Counties.

AGREEMENT

For the purpose of securing to each the benefits of mutual aid in the protection of life and property for fire and other emergency or disaster, and in consideration of the benefits to be received by each, the parties hereto mutually agree as follows:

1. Request for Assistance

The Incident Commander of any party city or fire district is authorized to request assistance from the other parties if confronted with an emergency situation requiring fire service resources in excess of that available.

(a) Request for assistance shall be made only by the Incident Commander of the requesting party or at his/her specific direction, and shall be directed to the appropriate county Dispatch Center or (other designated ordering point), the request shall then be forwarded from the requesting Dispatch Center to the responding Dispatch Center and then to the officer authorized to dispatch resources outside of the area of the responding party, that officer will make the decision as to the assistance to be given in response to the request.

(b) A request for assistance shall specify the number, type and kind of resources required, and shall specify the reporting location and time (immediate vs. planned need) to which the resources are to be dispatched.

(c) Requests for assistance should be made to the nearest party with the number, type and kind of resources required. Move-up may be utilized to assure continuity of protection to all areas.

2. Response to Request

(a) Upon receipt of a request for mutual aid assistance, the officer authorized to allocate and dispatch resources to the party requesting the resources shall:

(1) Determine if the resources are available for response as requested;

(2) Advise the requesting party of the resources available for response and the response time;

(3) Authorize dispatch of the requested resources as available to the designated location(s) with proper reporting instructions.

(b) The rendering of assistance under the terms of this Agreement shall not be mandatory, but the party receiving the request for assistance should within 30 minutes inform the requesting party if for any reason assistance cannot be rendered.

3. Pre-Emergency Planning

The parties shall, from time to time, mutually establish pre-emergency plans that shall indicate the types and locations of potential problem areas where emergency assistance may be needed, and the type of equipment and number of personnel that should be dispatched under various circumstances. Such plans shall consider and assure the proper protection by the responding party of its own geographical area.

4. Preplanned Resources

Fire resources may be preplanned through alarm assignments that utilize nearest resources, including those of adjacent jurisdictions by mutual agreement of the parties. In such event, the preplanned resources, if available, shall be automatically dispatched. Preplanned resources may also be utilized for move-up coverage.

5. Spokane County Fire Resource Plan

This Agreement is not intended to modify or replace the Spokane County Mutual Aid Agreement or the Spokane County Fire Resource Plan as presently adopted or hereafter amended by the Inland Empire Fire Chiefs Association.

6. Status of Equipment and Personnel

Each of the parties to this Agreement shall be legally responsible for all of its equipment and personnel utilized for the purposes of fulfilling its obligations under the terms of this Agreement. Further, each party shall bear the costs of any damage to their equipment resulting from its use for these purposes, excluding any claims for reimbursement from third parties that may result from a third party's negligent acts or omissions.

All personnel acting for or on behalf of the party under the terms of this Agreement shall be employees or authorized volunteers of said party. Each party to this Agreement shall assume responsibility and liability for the acts of its employees or volunteers, and further each party shall assume the responsibility for any claims, injury or loss sustained by such employee or authorized volunteer while acting in the performance of his or her duties.

7. Command Responsibility

The incident command responsibility shall be determined by the parties with jurisdictional responsibility:

(1) The incident shall be managed and all responding resources assigned shall operate under a NIMS compliant Incident Command System.

(2) The responding resources provided by the parties will operate within the incident command system as assigned provided that they shall remain under the direct supervision of the officer in charge of their responding unit.

8. Termination of Service

The resources of the responding party shall be released from service, demobed and returned to the responding city or fire district by the incident commander when no longer required or when needed in the area for which it normally provides protection.

9. Liability and Claims

(a) Each party shall be responsible for its own resources used in providing assistance pursuant to this Agreement.

(b) Each party shall, at all times, be solely responsible and liable for the acts or the failure to act of its personnel that occur or arise in any way out of the performance of this agreement by its personnel only and shall save and hold harmless from all costs, expenses, losses and damages, including cost of defense, incurred as a result of any acts or omissions of such party's personnel relating to the performance of this agreement.

10. Compensation
