1. What is your proposed amendment intended to accomplish?
2. How will your proposal support the goals contained in Redmond's Comprehensive Plan? Goals are shown on page 6.
3. How will your proposal support other applicable policies and provisions from Redmond's Comprehensive Plan? Plan can be accessed at www.redmond.gov/compplan.

5. What economic impacts might your proposal have, such as impacts for businesses, residents, property owners, or Redmond City Government?
6. How will your proposal address the long-term interests and needs of the community as a whole?
7. Are you aware of any public support for your proposed amendment?
8. If your proposal has been considered within the last four years, what circumstances have changed to make the proposed amendment appropriate?

LAND USE MAP QUESTIONS

Questions 9 to 14 apply only to changes to the Land Use Plan Map or land use designation. In addressing these additional questions, describe both positive and negative impacts and any measure you would take to mitigate negative impacts

9. Describe the suitability of the area for the proposed designation, considering the adjacent land uses and the surrounding development pattern, and the zoning standards under the potential zoning classification.

10. What is the potential for the uses allowed under the proposed designation to be incompatible with uses or property in the immediate vicinity of the subject property? How would adverse impacts be mitigated?

11. Describe the extent to which the proposal supports: a) Redmond's preferred land use pattern as described in the Comprehensive Plan Land Use Element, and b) the community character object contained in Redmond's Comprehensive Plan. *See the Community Character or Land Use Element of the Comprehensive Plan or the elements specific to neighborhoods.*

12. Describe any probable adverse environmental impacts that might result from the proposed change in land use designation. How would any adverse impacts be mitigated?

13. Describe the extent in which adequate public facilities and services are likely to be available to serve the development allowed under the proposed land use designation.

14. If a change in allowed uses is proposed, discuss the need for the land use which would be allowed and whether the change would result in loss of capacity to accommodate other needed uses. Consider especially, whether the proposed change complies with the City policy HO-16, which would prohibit any rezone that reduces capacity for residential development without first approving another rezone that at least replaces the lot capacity elsewhere in the City.
